PROFILE

Highly motivated recent graduate with Advanced Certificate in Web and Mobile Application Development (GPA of 3.26), with many years of prior experience as Sr. Quality Assurance Engineer at large companies. Mature and dedicated professional with training in design principles and programming languages, seeking opportunity in Web Application Development and Testing.

SKILLS

JavaScript	Ajax
HTML5/CSS3	GitHub
ReactJS	MongoDB/SQL
Java	Windows 2000/NT/XP, Solaris
Express/NodeJS	SPARC, Linux and UNIX

EDUCATION

Jul 2018 — May 2020	Advanced Certificate in Web And Mobile Application, San Diego State University	San Diego
Jun 1999 — Aug 2002	Bachelor of Engineering, Pune University Instrumentation Engineering	Pune, India

PROJECTS

Jul 2018 — May 2020	<p>Product Inventory</p> <p>Used MERN stack to create a full-stack product Inventory application. Displayed knowledge in CRUD (Create, Update, Delete) operations. Pull in data from the MongoDB server and display inventory in tabulated format on an SPA using ReactJS. Used Express in the back-end. Added routing for the Single Page App using React-router.</p> <p>Corporate website</p> <p>Created a four-page website for a sample corporation using MERN stack. The website included web pages for Home, About Us, Solutions, and Contact Us. Added Grid layouts and used SASS for styling the webpage.</p> <p>Employee Management System</p> <p>Built an Employee Management application that allowed the user to show all employees, add an employee, and delete an employee. Used multi-dimensional data to persist employee data.</p>
